ICTERI Conference

ICTERI is an annual peer-reviewed international Computer Science conference. It focuses on research, design, development, deployment, and usage of advanced Information Systems (IS) and Information and Communication Technology (ICT) Infrastructures in industry and education. Special attention is given to the feasibility and practicality of the proposed ideas/solutions, with a focus on their potential or existing implementation. This can be demonstrated, for example, by a proof-of-concept implementation, a comprehensive prototype, a comprehensive case study, or the analysis of real use cases. Submissions on academic-industrial partnerships for ICT innovation, knowledge transfer, and technological/ methodological reports are also welcome.

ELLIS Lightning Talks

ELLIS (<https://ellis.eu/>) - the European Laboratory for Learning and Intelligent Systems - is a pan-European AI network of excellence, which focuses on fundamental science, technical innovation, and societal impact. Founded in 2018, ELLIS builds upon machine learning as the driver for modern AI and aims to secure Europe's sovereignty in this competitive field by creating a multi-centric AI research laboratory. ELLIS wants to ensure that the highest level of AI research is performed in the open societies of Europe, and follows a three-pillar strategy to achieve that.

There is a nice practice, supported by ICTERI and ELLIS, that the authors of recent papers, published at top-tier conferences, are invited to present their contributions.

At ICTERI-2024, we start offering this dissemination channel to our community. For that, we solicit proposals for lightning talks that:

- Have 10-minute duration, followed by the 10-minute questions and answers
- Concisely present the research results that have been published in 2023 or 2024, or have been accepted for publication in 2024 at a top tier venue in a machine learning-driven field¹
- Show the perspective of the further research within the focus of the published result
- Inspire the audience to adopt the contribution or use it for cross-evaluation
- Articulate the readiness for and preferred ways of collaboration with potential early adopters

ELLIS Lightning Talks track will not publish the abstracts of the accepted talks, as the goal of the track is to enable the dissemination of already published quality results and stimulate cooperation around these results. Instead of publishing, we will post the abstracts and presentations slides of the accepted talks at the ICTERI-2024 (<https://icteri.org/icteri-2024/>) and ELLIS Associate Unit Lviv (<https://apps.ucu.edu.ua/en/ellis/>) websites, if the authors wish to disseminate their materials using these channels.

Topics of Interest

We solicit proposals of lightning talks about recently published original contributions in machine learning-driven fields¹

¹ The list of the venues is: NeurIPS, ICML, ICLR, JMLR, CVPR, ICCV, ECCV, IJCV, PAMI, RSS, CoRL, TRO, IJRR, Science Robotics, ACL, EMNLP, KDD, AAAI, IJCAI, COLT, UAI, AAMAS, AISTATS, TAACL, SIGIR, WSDM, Web Conference. If there is available space publications at other venues will be also considered.

Mode of Participation

ICTERI supports and respects all the aspects that help promote diversity in our conference community, which aspires to facilitate a truly international and multicultural gathering. Therefore, we prefer physical assembly for the conference as the most effective mode for scientific exchange and community building.

The information about the **arrangements and requirements** for the **virtual attendees** is provided and updated at <https://icteri.org/icteri-2024/hybrid/>.

Important Dates

All deadlines are "Anywhere on Earth" (23:59 Hawaii) time

Monday, 30.06.2024 – **abstract** submission

Monday, 30.07.2024 – **acceptance** notification

Monday, 30.08.2024 – **registration**

Monday, 23.09.2024 – Friday, 27.09.2024 – **conference** days

No Conference Fee

Traditionally, ICTERI does not charge conference fees. Participation is FREE. Infrastructure and service expenses are covered by our sponsors.

Submission Guidelines

For the Lightning Talks track, the submission should include the details of the original contribution, i.e., the title, authors, abstract, the name of the conference/journal, year of publication (only 2023-2024 are considered), the name of the presenter who will give the lightning talk and a link to a publicly accessible pdf of the paper. Please also include information about the impact factor of the journal or the CORE ranking (<https://portal.core.edu.au/conf-ranks/>) and acceptance rate of the conference.

The language of the ICTERI Conference and ELLIS Lightning Talks track is English. Please submit your talk proposal, in .pdf, to the ELLIS Lightning Talks track of ICTERI-2024 via the EasyChair Conference Management System: <https://easychair.org/conferences/?conf=icteri2024>.

Evaluation

All submissions will be evaluated by members of the track program committee. The authors of the accepted proposals will be invited to give their lightning talks at ICTERI-2024.

ICTERI-2024 and Track Organisers

- [Ministry of Education and Science of Ukraine](#)
- [Kherson State University](#), Ukraine
- [Ukrainian Catholic University](#), Ukraine
- [University of Liverpool](#), UK
- [Ludwig Maximilian University of Munich](#), Germany

- [National University of Kyiv Mohyla Academy](#), Ukraine
- [Czech Technical University in Prague](#), Czechia
- [ELLIS Associate Unit Lviv](#), Ukraine
- [ELLIS Unit Prague](#), Czechia
- [Lviv Polytechnic National University](#), Ukraine
- [University of Warmia and Mazury in Olsztyn](#), Poland
- [V.N. Karazin Kharkiv National University](#), Ukraine
- [Taras Shevchenko National University of Kyiv](#), Ukraine
- [Universität Klagenfurt](#), Austria
- [SLM Software](#), AoE
- [Ukrainian Scientific and Educational IT-Society \(UNIT\)](#), Ukraine

ICTERI-2024 General Chairs

Yaroslav Prytula, Ukrainian Catholic University, Ukraine

Oleksandr Spivakovsky, Kherson State University, Ukraine

ICTERI-2024 Program Chairs

Vadim Ermolayev, Ukrainian Catholic University, Ukraine

Igor Potapov, University of Liverpool, UK

ELLIS Lightning Talks Track Chairs

Rostyslav Hryniv, Ukrainian Catholic University,

ELLIS Associate Unit Lviv, Ukraine

Josef Sivic, Czech Technical University in Prague,

ELLIS Unit Prague, Czechia

ICTERI-2024 Local Organization Chairs

Oles Doboševych, Ukrainian Catholic University, Ukraine

Maksym Vinnik, Kherson State University, Ukraine

ICTERI-2024 Publicity Chairs

Andriy Hrynykha, Ukrainian Catholic University, Ukraine

Nataliya Kushnir, Kherson State University, Ukraine

ICTERI-2024 Web Chair

Alexandr Vasyleyko, SLM Software, AoE

How to Get to Lviv and UCU

Lviv is a major cultural and tourist venue in the West of Ukraine, having tight historical links to the neighbouring European countries. The city is easily reachable by using railway or bus connections from Europe through Poland, Slovakia, or Hungary. Lviv is also connected by rail and road to the major Ukrainian cities. More details are available at <https://lviv.travel/en/lviv-plans>.
