2nd Workshop on Digital Transformation of Education (DigiTransfEd 2023)

DigiTransfEd 2023 as is

DigiTransfEd is a peer-reviewed international workshop focusing on the theory and practice of Digital Transformation of Education.

Digital transformation has transformed the world and society and the economy. However, until the COVID-19 pandemic, its impact on education and training was much more limited. The pandemic has demonstrated that having an education and training system which is fit for the digital age is essential. The digitalization of education that occurred during the pandemic prepared all levels of education in Ukraine for work in a war. Digital transformation of the educational process of all levels, branches and directions of training is currently a key issue for research by all scientists in the world. We invite researchers, graduate students, scientists to participate in the seminar dedicated to the global problem of humanity.

Topics of interest

DigiTransfEd topics of interest include, but are not limited to, the following:

- Digital transformation strategies for educational institutions
- Integrating digital technologies in teaching and learning
- Online and blended learning models for K-12 and higher education
- Assessment and evaluation of digital learning environments
- Student engagement and motivation in online learning
- Teacher training and professional development for digital transformation
- Ethical and social implications of digital transformation in education

Submission Types and Requirements

*DigiTransfEd* solicits (i) full research papers, (ii) discussion, survey, or problem analysis papers, (iii) short/research-in-progress papers. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this workshop.

Submission Guidelines

The only language of *DigiTransfEd* submissions is **English**. Due to promoting scientific communication, *DigiTransfEd* live talks can be in any language (but we prefer English).

All submissions shall be annotated by the keywords/phrases freely chosen by the authors. At least three and at most five key phrases have to be provided.

All submissions must comply with the format guidelines. Formatting instructions and template can be found at [https://notso.easyscience.education/cited/example.zip](https://notso.easyscience.education/cited/example.zip)

Submissions must be made in .pdf by using Not So Easy Science Education Conference System: [https://notso.easyscience.education/digitransfed/2023](https://notso.easyscience.education/digitransfed/2023)

Publication of *DigiTransfEd* 2023

1. Only papers written in English can be recommended, if accepted by the *DigiTransfEd* Program Committee, for the publication in the Workshop Proceedings which shall be submitted to CEUR-WS.org for online publication.
2. The best papers, selected by workshop program chairs, will be recommended for submission to the Education Technology Quarterly (expanded and revised, June 2024).

Evaluation and Presentation of Workshop Papers

Every submission will be evaluated by at least three members of the *DigiTransfEd* Program Committee. Based on evaluation results, the best papers will be accepted for their presentation at the workshop and publication in the proceedings.

It is strongly required that at least one author of an accepted paper:
- Register to attend the conference
- Attends the workshop in person
- Presents their paper at the workshop at the time specified in the program, in person.

Workshop organizers will withdraw the paper from the publication in CEUR-WS proceedings if the author(s) do not attend the workshop.
